

---

After all the club has gone through we are off and curling once again, all leagues have played at least once and schedules have been tweaked to accommodate curlers. While the leagues have all started I am sure we could use a curler or two in each one of them. If you would like to get into another league it is never too late. If you want to do so and do not know who to contact I will act as a go between, send me an email at [enquiries@bradfordcurlingclub.ca](mailto:enquiries@bradfordcurlingclub.ca) and I will make sure you are accommodated.....I do not know exactly who's idea it was, I think it was between Bob Kelsey and Peter Fudge, but one of the best things to happen to the club in a few years is the 'Learn To Curl Clinics' which started last Sunday and run for four weeks. These were publicized by the Town Recreation department and registration was done through them, there are a total of 34 adults and about 12 youth curlers taking part in the clinics which start at 4:00 and go through to 9:00..... Developing out of these clinics is the proposal for a 'novice' league for beginners to run on Sunday nights. Information should be out on this by the first of the week, so if you know anyone who you think would be interested but did not get into the clinics, here's the chance for them to get involved at a beginners level. Watch the club bulletin board and the website for more information.....Plans are in the works to run my favorite fundraiser, the Macgregor Meat fundraising program, this gives an opportunity to both help out the club and enjoy some of the best meat products you can get. Watch for the order forms and if you have not partaken in the past Macgregor fundraisers, do yourself the favour.....For the second year the ladies division has held a 'Ladies Only' event and this year's proved to be another great success with 32 ladies attending. While I, of course, was not invited and do not know the details, I can only imagine the happenings of an event which was publicized as a 'Jockey Wear' party, with models included. Congratulations ladies, we need events like this at club, for the exposure. Oops, no pun intended.....While on the subject of exposure I was checking out the club calendar the other day and, excluding the Christmas break, there is only one day (December 17<sup>th</sup>), on which the club is not being used. Who wants to organize a Jitney?..... Until next time, think of some way you can help out at the club, if you have an idea, let someone know, and let's all work together for the betterment of the club.
